

# Cloud File Sharing and Synchronization

We live in a fast-paced, mobile world. How are your employees securely accessing and sharing files on the go?

services, SyncAnywhere has enterprise security features.

These security features give business administrators total control over

## SyncAnywhere: Business Files Made Always Available and Always Secure

Concero's SyncAnywhere file sharing and synchronization service makes it possible for employees to securely access and share files and folders from anywhere, on any device.

SyncAnywhere is full of features that make it easy for users to securely share and work with others. Users have various options for sharing with internal and external parties, can control the files and folders that they have shared, and set policies for the ways in which they are accessed. All of this combines to form an intuitive and seamless user experience.

Consumer-grade file sync services, such as Dropbox, Microsoft OneDrive, and Google Drive, are not appropriate for the workplace.

While maintaining the same ease of use as these consumer-grade

their corporate data through: granular permission management, rich reporting, a comprehensive dashboard, remote wipes, and military-grade encryption of all files in transit and at rest.

All SyncAnywhere files are hosted in a top-tier, SSAE 16 SOC II certified data center located safely in Canada.

### FAST FACTS

21.3%

Productivity loss due to document challenges according to the IDC.

92%

Percentage of knowledge workers that use email for document collaboration according to a Harris Interactive survey.

77%

Percentage of business owners that want remote access to files according to Intuit.

83%

Percentage of knowledge workers that lose time over versioning issues according to a Harris Interactive study.
